DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Sakurai et al. ('022) as previously applied.

The rejection is maintained as stated in paragraph 2 of the Office Action mailed on 8/14/02.

Claim Rejections - 35 USC § 103

3. Claims 2-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sakurai et al. as applied to claim 1 above, and further in view of the following comments or Nemoto ('551) as previously applied.

The rejection is maintained as stated in paragraph 5 of the Office Action mailed on 8/14/02 and as follows.

With respect to claims 28-30, one in the ordinary skilled in the art would have been lead to the recited implant energy and doping level through routine experimentation to achieve desired device dimensions and device density on the finished wafer and, therefore, desired device characteristics because device dimension and doping levels of device elements were known to affect device performance at the time of applicant's invention. (See MPEP 2144.05).

Response to Arguments

4. Applicant argues that the inner area of Figs. 7 through 10 does not remain p-type while forming region 105. However, applicant is directed to Figs. 2 through 6 wherein trough 24 is formed without changing the conductivity type of the inner area.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
